

BORN TO **FARM**

Massey Ferguson 8S Series

DESIGNED FOR THE FARMER

- ▷ Meets grower needs without sacrificing capability
- ▷ Maximized operator comfort and productivity
- ▷ Intuitive design for easy use
- ▷ Straightforward and dependable performance

THE CAB

- ▷ Roomier cab gives the operator more space to work
 - Operators that feel less cramped are better able to put in long hours without negative physical impact
- ▷ Massey Ferguson's Protect-U™ design offers a 9.4-inch gap between the engine and cab
 - Gives growers ultimate forward visibility and comfort
 - One of the quietest cabs on the market

IMPROVED VISIBILITY

- ▷ High vantage point
- ▷ Lots of window space so the operator has panoramic views
- ▷ Intuitive design for easy use
- ▷ Large wipers maintain visibility in rainy/snowy conditions
- ▷ Integrated rear camera to monitor implements
- ▷ Full array of lights
- ▷ Supreme nighttime visibility allows for easier baling at night

OPTIMIZED EFFICIENCY

- ▷ Standard precision farming tools for more informed decisions
- ▷ Increased horsepower and boost to power more equipment and increase speed in the field and on the road
- ▷ Easily achieve and maintain desired ground speed for optimal bale shape and consistent flake count in hay applications
- ▷ Braking system reduces drag and improves efficiency, with less transmission power loss
- ▷ Air flow provides cooler air to the engine, keeping dust out and increasing service life
