## Massey Ferguson TD X Series

### Delivering Efficient, Dependable, One-Pass Tedding

---

#### THREE MODELS

- ▷ 8-rotor TD 1028 X TRC
- ▷ 10-rotor TD 1310 X TRC
- ▷ TD 776 X DN
- ▷ Working width up to 41 feet

#### ONE OPERATOR, ONE TRACTOR, ONE PASS

- ▷ Faster, more uniform dry down with heavy-duty hooked tines
- ▷ Six full windings per tine for strength, flexibility and durability
- ▷ Even spread in heavy forage with a single pass
- ▷ 1:2 transmission ratio for max performance at lower PTO speeds

#### DURABLE CONSTRUCTION FOR MAXIMUM LONGEVITY AND ROI

- ▷ Uninterrupted drivelines and steady, reliable power with single-rotor powertrain
- ▷ Guaranteed synchronization
- ▷ Unique driveshaft design for smooth-running, long-lasting productivity
- ▷ Heavy-duty, round-tube frame with modular construction
- ▷ Induction-hardened, break-resistant rotor heads

#### USER-FRIENDLY EQUIPMENT SOLUTION

- ▷ Simple setup and adjustments for quick, efficient ground coverage
- ▷ Grease-lubricated, fully sealed transmission cases for quieter operation
